

# VERSAPRO™ LOTION BASE

**HYPOALLERGENIC  
CLINICALLY TESTED**

Following in the footsteps of the popular VersaPro™ Cream and Gel bases, MEDISCA has combined science and innovation to create another versatile base, VersaPro™ Lotion Base. With its smooth, fluid texture and non-greasy after feel, MEDISCA's VersaPro™ Lotion Base is well suited for both cosmetic and dermatological applications. It offers a wide pH stability range and features a thinner consistency making it ideal for compounding higher concentrations of hormones. This unique lotion base has been clinically tested to be hypoallergenic and is free of all fragrances, parabens, gluten, mineral oils and petrolatum.
