## LIGHT INIBITING ZIPPER BAG (2.25" × 3.75")

### 2.5 mil Thick, Silver, Metalized PET/Poly Laminated Barrier Film

**DESCRIPTION:** This bag meets FDA and USDA specifications for food contact and is typically used in food, medical, pharmaceutical and general industrial applications.

It is tamper-evident and must be cut open at the notches to access the zipper. It is filled from the bottom and heat sealed to close.

#### FEATURES:

-  Tear notch and recloseable zipper
-  Metallization of the PET extends the shelf life and/or protect the product from environmental factors
-  Heat sealable due to LDPE sealant layer
