

An Extension of Our Oral Bases Line

MEDISCA's line of Oral Vehicles continues to grow with the arrival of Oral Mix Dry Alka, SF. Oral Mix Dry Alka, SF is a uniform powder blend buffered to an **alkaline pH** for drugs that require an alkaline medium for stability in aqueous oral vehicles. This powder for reconstitution is formulated to quickly and easily compound acid-labile APIs such as Omeprazole (PPI) into highly palatable oral suspensions. For added versatility, Oral Mix Dry Alka, SF is offered in both cherry and unflavored options.

Features and Benefits

- pH greater than 7 (suitable for acid-labile APIs)
- Easily dispersible in water
- Sugar, preservative and dye free
- Taste-masking properties – improving patient compliance
- Easier to swallow than capsules or tablets
- Proven stability with **Omeprazole 2 – 10 mg/mL for 70 days**
- Available in convenient pre-measured kits

MEDISCA Network Formulas

- F 007 404:** Omeprazole 2 mg/mL Oral Liquid (**Flavored** Suspension, **60 mL**)
- F 007 405:** Omeprazole 2 mg/mL Oral Liquid (**Flavored** Suspension, **100 mL**)
- F 007 406:** Omeprazole 2 mg/mL Oral Liquid (**Unflavored** Suspension, **60 mL**)
- F 007 407:** Omeprazole 2 mg/mL Oral Liquid (**Unflavored** Suspension, **100 mL**)

Kits

Our pre-weighed powdered base in 3.8 g and 6.35 g allows for easy compounding. Available in dispensing containers to compound 60 mL and 100 mL suspensions in less than five minutes, these kits will save you time without sacrificing quality. Flavored and unflavored options are offered in two different sizes for added convenience. **Four Kits have been designed to compound suspensions of Omeprazole* 2 mg/mL (60 mL and 100 mL).**

I. ORAL MIX DRY ALKA, SF KIT (CHERRY FLAVORED)			II. ORAL MIX DRY ALKA, SF KIT (UNFLAVORED)		
Size	60 mL	100 mL	Size	60 mL	100 mL
Product No.	6351-01	6350-01	Product No.	6353-01	6352-01

EACH KIT CONTAINS

1. Oral Mix Dry Alka, SF (Powder)	Pre-Weighed
2. Adapter, Press-In Bottle 33 mm	1 Each
3. Syringe, PreciseDose Dispenser™ (Amber 5 mL, w/Tip Cap)	1 Each

*Pre-weighed Omeprazole sold separately. See Product No. 1935-01 and 1935-06.

NEW! PEEL-OFF LABELS

Easy peel-off labels designed for exceptionally fast and convenient labeling of final dispensing container.

Individual Components

Bases

Oral Mix Dry Alka, SF base is ideal for your bulk needs. Available in three convenient sizes of 500 g, 1 Kg and 5 Kg.

- Cherry Flavored (Prod. No. 3077)
- Unflavored (Prod. No. 3078)

Omeprazole

Omeprazole, USP (Powder) is available in two pre-weighed convenient sizes designed for use with kits.

- 120 mg (60 mL) (Prod. No. 1935-01)
- 200 mg (100 mL) (Prod. No. 1935-06)

Packaging

For optimal dispensing, UV-resistant graduated polypropylene bottles with child-resistant caps are available in two practical sizes.

- 3 oz Bottle (Prod. No. 6348)
- 4 oz Bottle (Prod. No. 6347)

For All Your Other Oral Suspensions (pH 4-5)
